PROFESSIONAL EXPERIENCE

Synapse Energy Economics Inc., Cambridge, MA. *Senior Associate*, May 2024 – Present.

- Provides research, analysis, and consulting services on organized wholesale power markets with a focus on capacity market reforms and the energy transition.
- Supports NEPOOL consumer advocates and energy efficiency stakeholder group monitoring transmission, interconnection, and federal regulatory issues.

White House Council on Environmental Quality, Washington, D.C. *Legal Fellow*, January – May 2024.

- Provided support to Office of the General Counsel on NEPA Phase 2 rule making.
- Analyzed federal funding support for carbon capture and storage projects and environmental justice analysis in NEPA documents.
- Conducted FOIA and federal ethics reviews.

American Clean Power Association, Washington, D.C. *Legal Fellow*, June – December 2023.

- Drafted legal memoranda, prepared agency public comment, and conducted legal research on federal permitting legislation, IRS clean energy tax guidance, FERC capacity market and interconnection dockets, and other relevant legislative priorities for largest renewable energy trade association.

Information Technology and Innovation Foundation, Washington, D.C. *Senior Policy Analyst*, May 2021 – June 2023.

- Climate-tech innovation policy analyst at technology think tank. Lead author on numerous reports on international trade, climate change, and energy transition.
- Drafted op-eds, public agency comments, conducted stakeholder workshops, and spoke on academic and industry panels.

Acadia Center, Boston, MA. *Policy Analyst*, June 2020 – May 2021.

- Conducted policy research and analysis on carbon pricing, environmental justice, energy efficiency, capacity market reforms, and other research areas of interest in New England and New York state for regional environmental non-governmental organization.

M.J. Bradley & Associates (now part of ERM), Concord, M.A. *Policy Analyst*, December 2018 – June 2020.

-
- Researched and drafted work products focused on federal and state energy and environmental policy for corporate and non-profit clients, with a particular focus on renewable energy and electric transportation solutions, EPA air regulatory air rulemakings, and FERC policy reforms.

David Gardiner & Associates, Washington, D.C. *Research Associate*, August 2014 – July 2016.

- Tracked development of EPA’s Clean Power Plan rule for corporate and industrial efficiency clients, filed comments on behalf of industrial efficiency clients. Conducted 35 interviews with renewable energy project developers and drafted renewable energy “success stories” for a national renewable energy campaign titled *A Renewable America*.
